

Multi-lamp, low voltage halogen or line voltage krypton recessed linear wall washer with nominal 5" (125mm) wide aperture, and cast borosilicate fresnel lens. Small aperture slot used in low ceiling heights typically found in residential and commercial applications. Smooth washes artwork and vertical surfaces such as walls, information panels, etc. Suitable for new construction.

SPECIFICATIONS

HOUSING

- Extruded aluminum housing with overlap flange

MOUNTING

- Recessed in architectural ceiling

ELECTRICAL

- Fixture comes with terminal block for connection to power supply
- Remote transformer, if required, should be sized for the run length and ordered separately

LAMP

- T2 - T3 frosted 12v or 24v, T4 frosted DC bayonet base 120v 20w max. supplied by others

SOCKET

- Precision die-formed aluminum socket plate
- G4/G6 ultem or nickel plated steel double contact bayonet base socket
- High temperature, teflon coated lead wires
- Socket pivots for easy relamping

LENS

- Cast borosilicate fresnel lens

TRIM

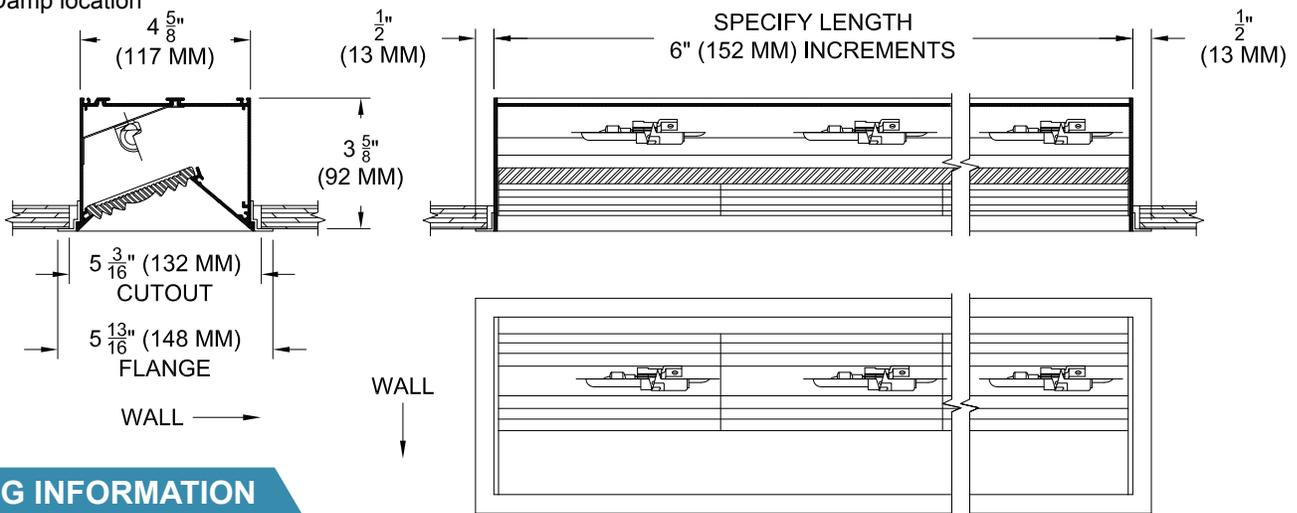

- Overlap flange

FINISH

- Powder paint on all surfaces in black and white as standard
- Additional colors and RAL palette available
- Custom finishes available

LABELS

- UL, C-UL, Damp location
