

Exposed Ceiling Joists. Connect all wiring for housing before ceiling installation.

Step A- Adjustable Mounting Rails anchor housing to ceiling joists with screws. Housing can be adjusted vertically. *See Detail Above.*

Step B- After vertical adjustments have been made, continue ceiling install.

Step C- Finish base ceiling installation.

Step D- Install ceiling and cutout square opening to fit around housing throat.

Step E- Paint ceiling after GWB has been cut to fit around housing throat.

Step F- After paint has dried out, push in flangeless trim to finalize install.

**Instruction sheet for
standard ceiling install
(Flangeless trim-ZT)
1009, 1012,
1017, 1240**

Final step requires ball plungers to lock onto housing.
